

The Threshold Lawyers

While the threshold defense is only raised in certain parts of Kentucky, particularly Louisville, as discussed above, among those who use this device, they do so frequently.

Marc Breit remains the all-time King of the Threshold – although he gets a strong push from Robert Rosing, who has won 10 of 14 threshold verdicts, Breit remains undefeated with a remarkable 18 threshold presentations to a jury. In every single one of those eighteen cases, a threshold verdict was returned. It is especially impressive as over 168 threshold presentations since 1999, defendants have enjoyed only a 57.1% success rate. Removing Breit's eighteen threshold verdicts from the totals, the success rate drops to 52.0%.

These are the lawyers who raised the threshold defense most frequently from 1999 to 2006
